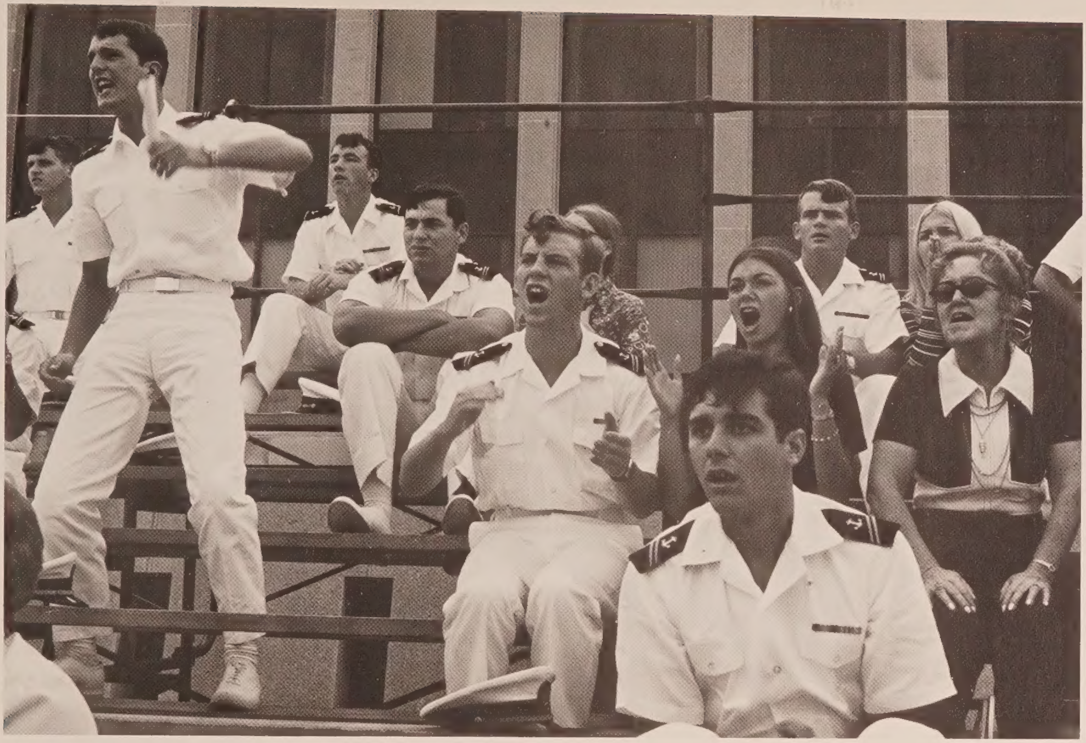
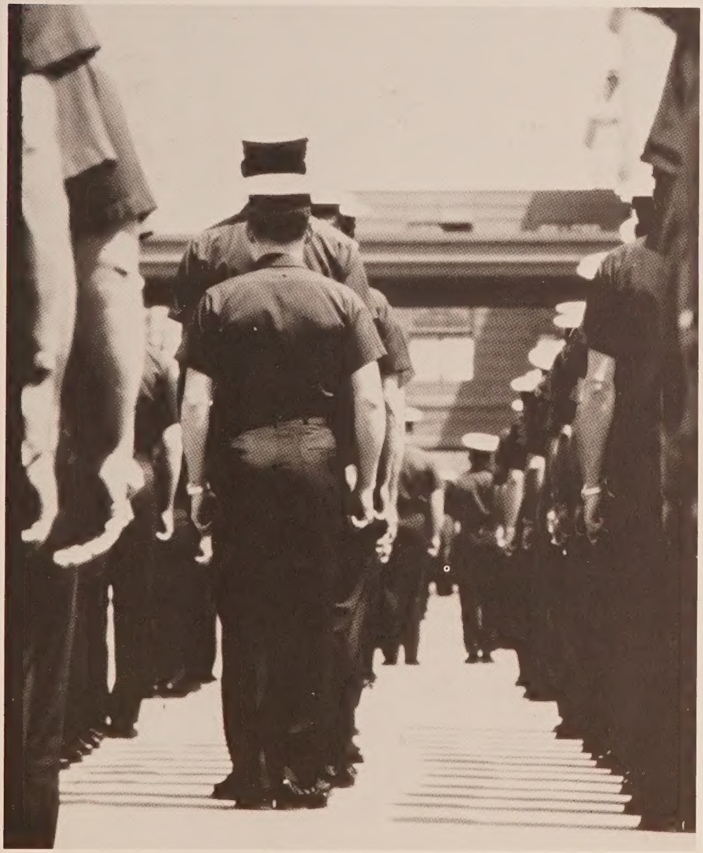
M.R. CAMPBELL

That's you, Mike Campbell, Midshipman, Class of 1974.

That's you . . .

. . . that's me . . .

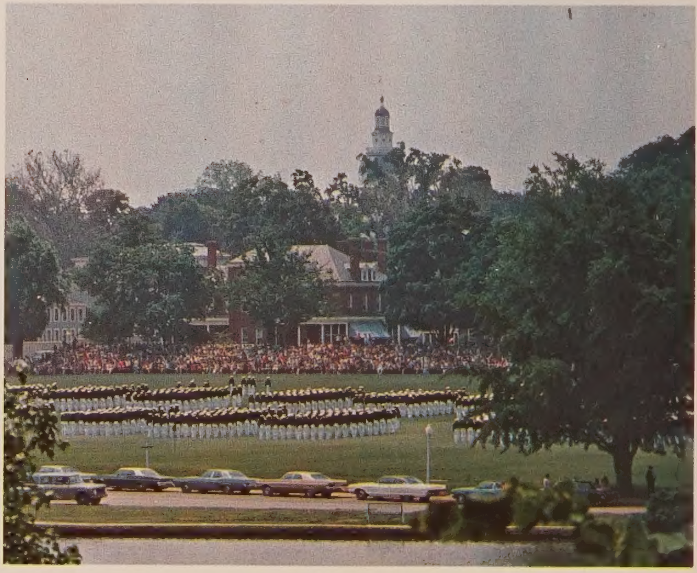


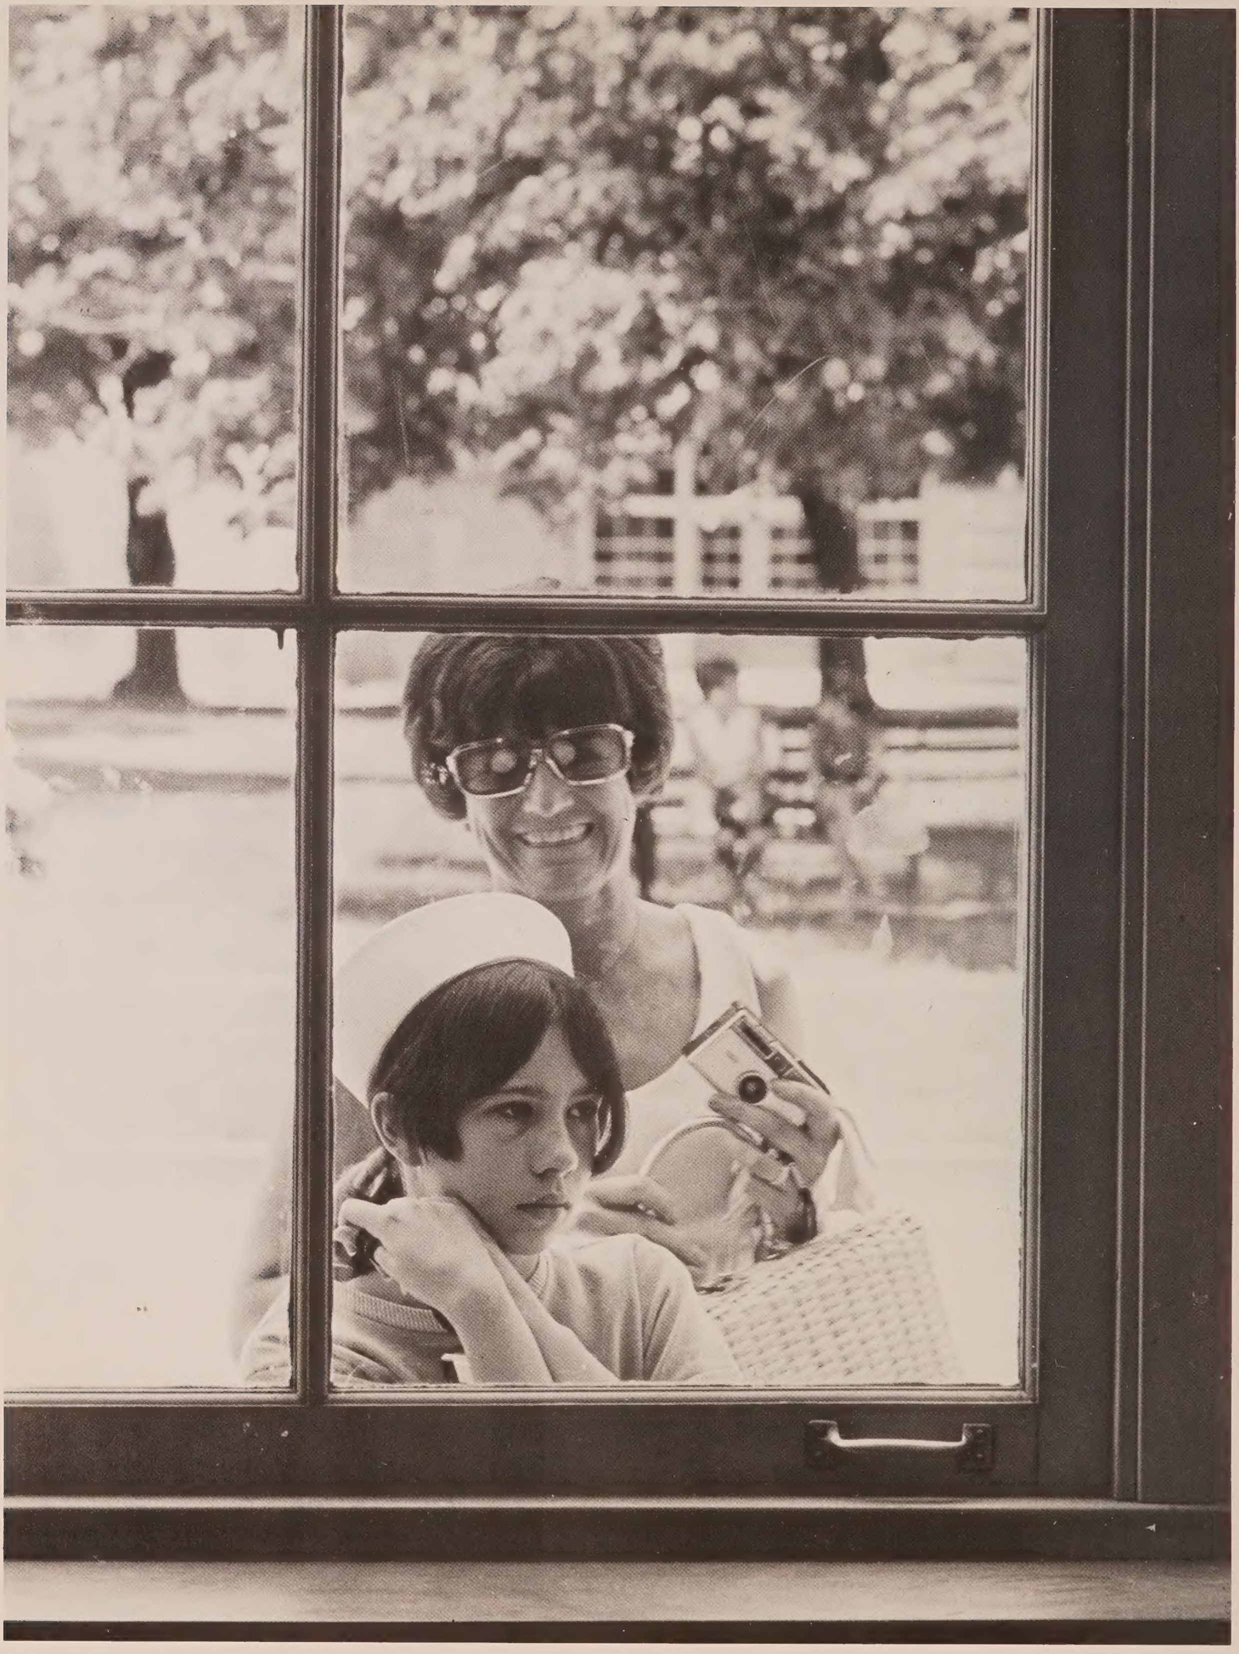


that's . . .

"Before you on historic Worden Field stand the thirty-six companies of the 4000-man Brigade of Midshipmen. Each company is marked by a gold guidon flag."

. . . all of us.





Stop for a moment now.

Look around you.

MICHELSON HALL

Try to see the Brigade, try to see yourself as others do.

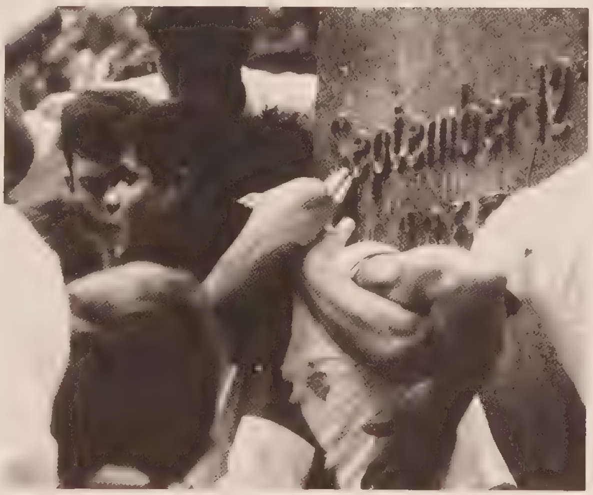
The Brigade of Midshipmen.

A swirling kaleidoscope of personalities and experiences . . .

. . . each piece different and constantly changing.



September 12

The challenge . . .

the seemingly endless routine . . .

NO
PARKING
EATING

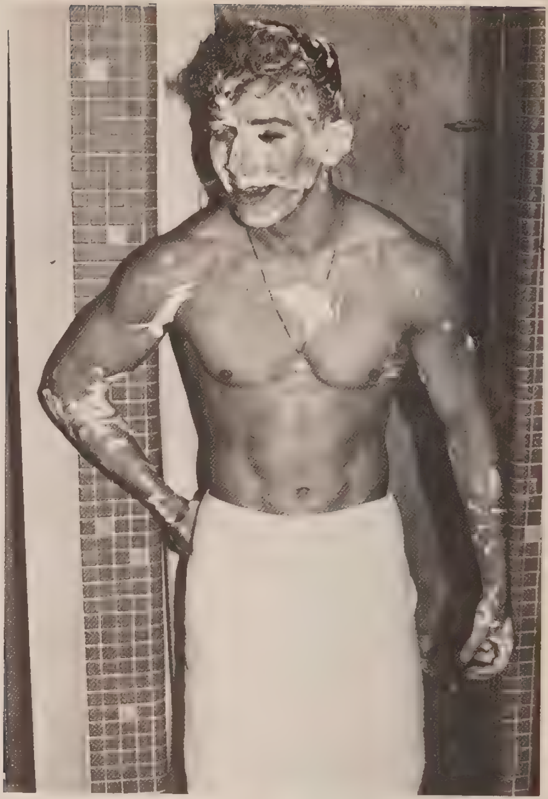
the day-to-day monotony that holds it all together . . .

the hours of waiting . . .

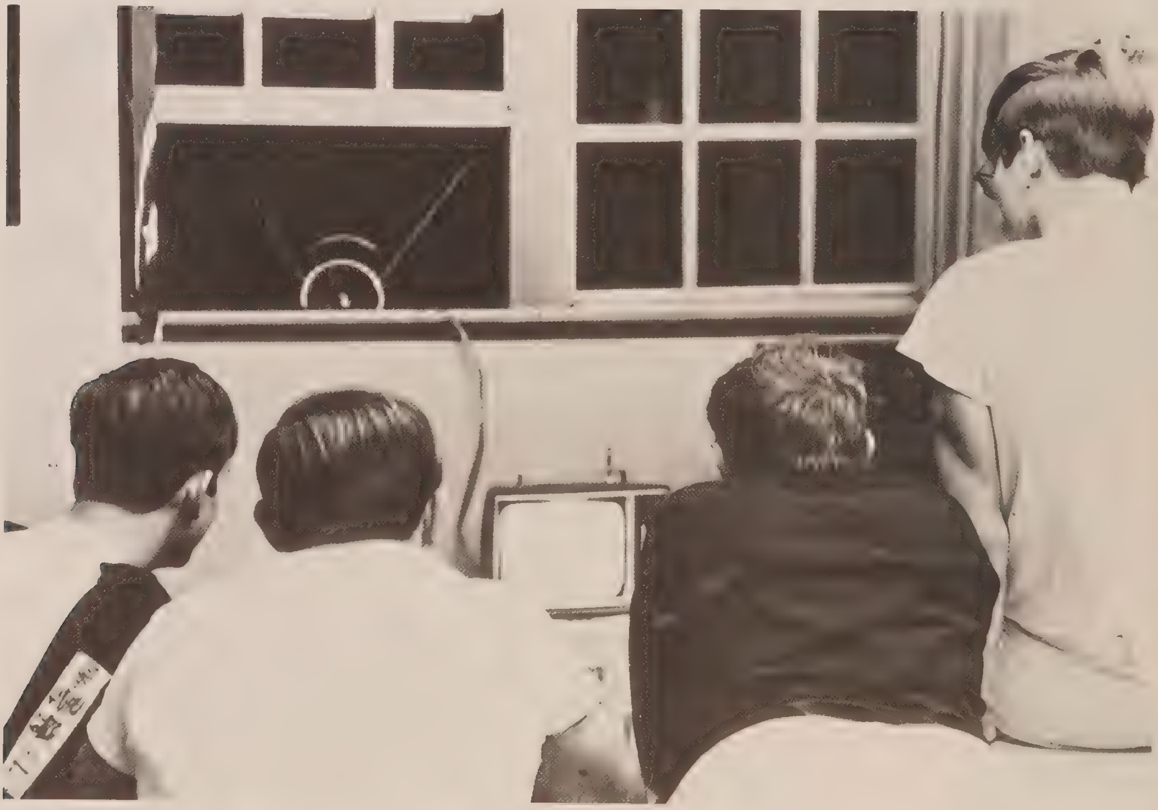
for the together times . . .

. . . that make it all seem worthwhile.

And then, when the crowds have gone,
and there's only us to see . . .



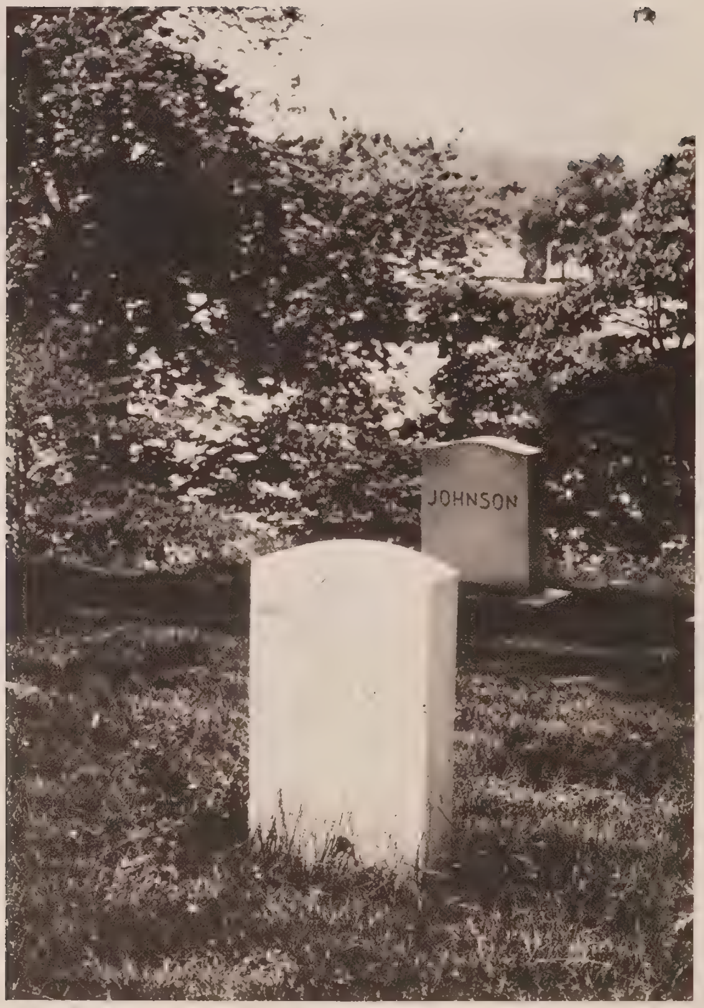
. . . the unrehearsed, off-stage
moments . . .



IN

moments of reflection . . .

. . . and sadness.



The Brigade of Midshipmen.

USNA ⚓ 1972 USNA ⚓ 1972 USNA

The Class of 1972 takes great pleasure in dedicating the 1972 LUCKY BAG to Vice-Admiral James Calvert, Superintendent of the United States Naval Academy from June of 1968 to June of 1972. Admiral Calvert and the Class of 1972 share four years of experiences and memories. Arriving at Annapolis with the Class and departing soon after its graduation Admiral Calvert has quite justly earned honorary membership in the Class of 1972.

UNITED STATES NAVAL ACADEMY
Annapolis, Maryland—21402

IN REPLY REFER TO:

725-71
1610/1
2 December 1971

From: Commandant of Midshipmen
To: Midshipman Second Class Craig B. DAWSON, USN

Subj: Assignment of restriction

1. As a result of your demonstrated misconduct, disrupting the formation of the Corps of Cadets, USMA, at the Army - Navy Game in Philadelphia, Pennsylvania, on 27 November 1971, you have been assigned restriction commencing immediately and lasting until 20 December 1971.

2. During this period of restriction, you will continue in the daily routine and conduct yourself in accordance with the provisions of USNA and Midshipmen Regulations except as modified as follows:

a. You are restricted to the confines of the U. S. Naval Academy.

b. You are required to muster at the Main Office at the commencement and termination of scheduled liberty for the Class of 1973.

c. You will not be granted any liberty or leave while in this restricted status.

d. You will participate in all Varsity Squash practices and games, both home and away. You must sign in and out at the Main Office for any Squash events you attend.

3. Special requests may be submitted via the chain of command.

P. J. RYAN

The 1972 LUCKY BAG wishes to express its sincere appreciation to LCdr. William Kelley, Officer Representative for the 1972 LUCKY BAG. Commander Kelley's interest and administrative assistance contributed greatly to the development of the 1972 LUCKY BAG. In his association with the LUCKY BAG LCdr Kelley proved to be not only an extremely able naval officer but a very warm and understanding individual as well.

Officer Representative, 1972 LUCKY BAG
William E. Kelley, LCdr., United States Navy

1972 LUCKY BAG Staff

The 1972 **Lucky Bag.** It's yours now.

You hold in your hands three years of thought, planning, work. You hold the end-result of what, for several members of this staff, became the dominating and all consuming factor of our time at Navy. But even more importantly, you hold in your hands a large slice of our very personalities, a bit of yourself, a cutting from each of the 4000 individuals whose sharing of their experiences, personalities, time and interest contributed to the creation of these two volumes.

The 1972 **Lucky Bag.** It's not just something that's yours. It is you. It's me. It's each of us bound timelessly within these covers to remain forever all of us. The Brigade of Midshipmen. The Class of 1972.

For the past year, the past four years, we followed you and your happenings with our cameras. We captured on film your high times, your low times, your day-by-day in-between times. And from these formless, disjointed segments of your lives and personalities we discovered a smile here, a grimace there, a face, a symbol, a movement; we came upon your moments of laughter, silence, sadness, of success, failure. These shared moments, given form through our own personalities and perceptions, lie before you as the 1972 **Lucky Bag.**

Now we present it to you. The measure of our success, of our fulfilled responsibility to you, rests in whether or not you can enjoy this book now, then again later, and still again find memories and meaning each time you venture back into these pages.

The 1972 **Lucky Bag.** It's ours now.

THE 1972 **LUCKY BAG** STAFF.

Credit and Thanks must be paid to all who made the successful completion of this book possible:

The Class of 1972, especially the **Lucky Bag** Reps, for its co-operation, assistance, and interest.

The underclass **Lucky Bag** and photo staffs, for the countless hours of their time spent working on this yearbook.

The Naval Academy Photo Club, for its willing help.

Professor Robert L. Rau of the Naval Academy Academic community, without whose patience and understanding with the academic delinquency of one F. L. Gibson, former Midshipman, USN, this book would never have been.

Taylor Publishing Company, Mr. Henry Wittich, Jr., and Mr. Pat Mahoney, for their invaluable advice and assistance.

Stevens Studios, Mr. Morris Ollove, Mr. John Renaud, Mr. Mel Scherback, Mrs. Judy Foulkes and Mrs. Diane Benson, for their fine work on the Class of '72 portraits.

Mr. Harry Leventen, advertising agent for the 1972 **Lucky Bag,** a difficult job well done.

LCdr. Jimmie Finklestein and Miss Ellen Ratrie of the Naval Academy Public Affairs Office, Mr. Ed Wilson of the Naval Academy Publications Office, and the Naval Academy Photo Lab for their superb work used in this book.

From the 1972 **Lucky Bag** Staff a very sincere and appreciative thanks to all.

THE WORLD NEEDS TO TALK THINGS OVER.

Satellite communications today are bringing scores of nations closer together. Spanning oceans. Shrinking distances.

Hughes has been deeply involved all the way. Almost a decade ago, we built the first synchronous communications satellite.

In 1971, our first Intelsat IV went to work for COMSAT and the International Telecommunications Consortium. It can handle 5,000 transocean telephone conversations at once. Or 12 color TV programs. Or tens of thousands of teletype circuits. The Intelsat network links 39 countries with service through 64 earth stations.

Super satellites like this are not just for the affluent nations. Hughes is developing low-cost earth stations to make satellite communications affordable to virtually all peoples.

Hughes is also pioneering in other technologies to advance mankind's lot. For the world's needs are many. And all of us must do all we can.

HUGHES

HUGHES AIRCRAFT COMPANY

GAMLEN: FULL SERVICE FULL CIRCLE

Just one name is all you need to know when you're talking marine maintenance, cleaning and additives. Gamlen! Call on Gamlen and you get it all—four decades of know-how, strategically located manufacturing facilities, warehouses and representatives in more than 200 world wide cities and ports, and service teams who'll do the whole job for you in important harbors around the world. Not only around the world, but around the clock.

Cleaning of all kinds—tanks and tankers, boilers, oil spill, barges. Preventive maintenance to save costly repairs and shipping delays. Fuel and boiler additives to stretch the life of your equipment. Water treatment chemicals to control corrosion, scale and pollution. And for unforeseeable special problems: fast chemical engineering consultation and trouble shooting.

This is Gamlen's idea of full service, full circle.

In space, telecommunications and computer-aided guidance and control, we work from the ground up.

Our business is engineering, producing [illegible] complete systems [illegible] and providing [illegible] around the world.

Our [illegible] experience [illegible] 1944 [illegible] equipment [illegible]. We [illegible] engineer and furnish telephone [illegible] switching facilities to provide complete subscriber-to-subscriber service.

Our expertise as a turnkey supplier of [illegible] guidance and control systems [illegible] the industry. We were first to provide moon range capability for the so-called "N time around" radar tracking systems, and in 1949 delivered America's first [illegible].

[illegible] proven (notably in Project Apollo) capability to develop and [illegible] the transportation industry which, undoubtedly, will lead to important applications in other areas.

And our computer background has [illegible] dising and railroad-car classification yards

We derive these [illegible] our predecessors [illegible] 513 458 Dynamics. Twx [illegible]

DYNAMICS CORPORATION OF AMERICA.
Electronic Systems Division dca

NEWPORT NEWS.
WE'VE LAUNCHED MORE THAN 500 SHIPS.

But wait 'til you see our encore. When we started out in 1886, we were just a small ship repair yard. We named the company Newport News. Because we were proud to be doing business here.

Today we're the largest shipyard in the world. And we're still proud to call ourselves Newport News Shipbuilding and Dry Dock Company. Because a lot of the people who helped put us where we are today come from right here on the Virginia Peninsula.

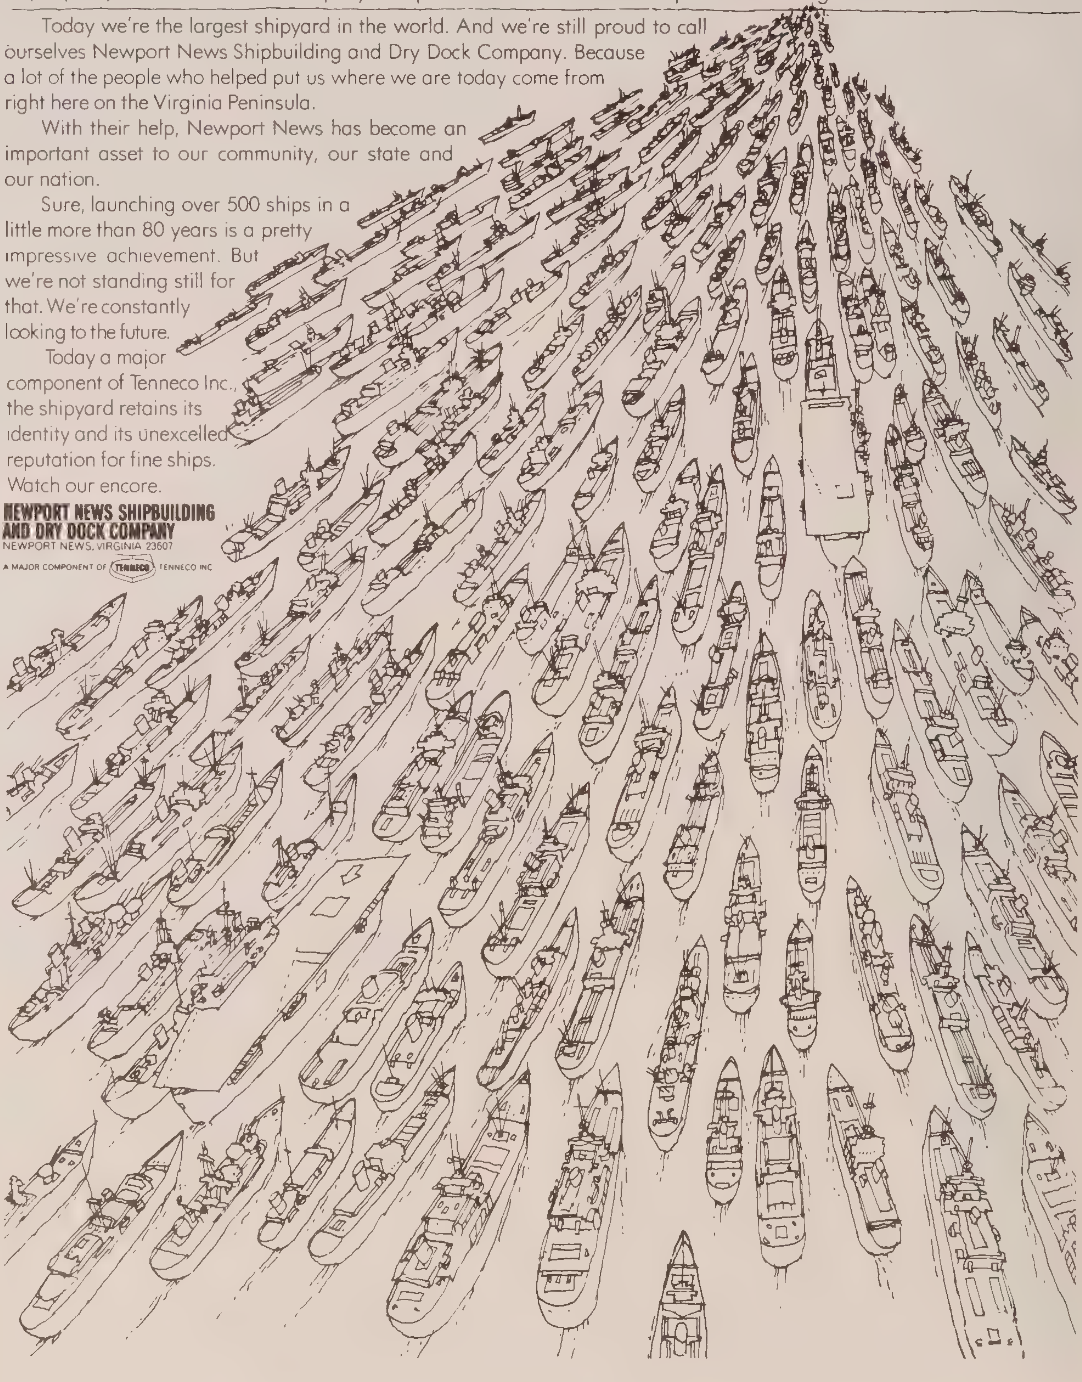
With their help, Newport News has become an important asset to our community, our state and our nation.

Sure, launching over 500 ships in a little more than 80 years is a pretty impressive achievement. But we're not standing still for that. We're constantly looking to the future.

Today a major component of Tenneco Inc., the shipyard retains its identity and its unexcelled reputation for fine ships. Watch our encore.

NEWPORT NEWS SHIPBUILDING
AND DRY DOCK COMPANY
NEWPORT NEWS, VIRGINIA 23607

A MAJOR COMPONENT OF TENNECO TENNECO INC



Some things ...like Edo excellence ...never change

In 1933, Admiral Richard E. Byrd explored the South Pole flying a Curtiss Condor equipped with Edo Floats. Today, the Navy patrols the seas of the world with modern helicopters towing mine countermeasure sleds built by Edo. In 46 years, our standard of excellence has never been lowered . . .

in Edo systems developed for

mine countermeasures,
antisubmarine warfare, oceanography,
strike warfare, airborne navigation,
hydrodynamics and airframes,
command and control.

And speaking of mine countermeasures, the first Navy helicopter squadron capable of detecting and detonating devastating influence mines is equipped with the sophisticated Mark 105 system designed and built by Edo.

You can save at The Seamen's automatically from anywhere

With an Allotment Savings Account, you can have part of your pay automatically deposited in The Seamen's from anywhere in the States . . . from anywhere in the world.

You specify the amount and each month the allotment is mailed direct to your savings account. It's the systematic way to save—with dividends paid from day of deposit on balances of $25 or more.

Or, if you prefer, you can handle all your own transactions and Bank by Mail at The Seamen's. You deposit or withdraw with simple forms and use convenient free postage-paid* envelopes. For further information on either savings plan, stop by any of our offices when you are in New York or write to our Main Office.

As a special service to depositors, The Seamen's can arrange to have money safely sent to almost anywhere in the world.

*In the United States only.

In a skid, the thing that can kill you is your own instinct.

A little sand spilled on a nice dry highway. A spatter of rain on an oily city street. A patch of glare ice on a bridge.

You can skid on all of them. Even with brand new tires. Even at 12 miles an hour. And, if you skid, you can count on your instinctive reflexes to try and murder you.

Because your instinct wants the skid to stop. So it tries to make you hit your brakes (figuring that brakes can put a stop to **anything**).

Your instinct figures wrong.

Hitting your brakes keeps your wheels from rolling. So they're forced to keep sliding. And a minor skid can turn into a fatal crash.

When you start to skid, forget your instinct and remember these rules:

Keep your foot **off the brake.**

If your rear wheels are sliding to the right, steer gently to the right until you feel the tires gripping the road again. (Don't make any fast, sharp moves.)

If your rear wheels slide to the left, steer gently to the left.

If you **must** stop, pump your brake pedal with a hard, rapid, on-and-off action to keep your wheels from locking and skidding even worse.

Finally, if you **must** drive on a slippery road and your instinct tells you that a sudden change of speed or direction could make you skid, obey it. (Your instinct isn't **always** wrong.)

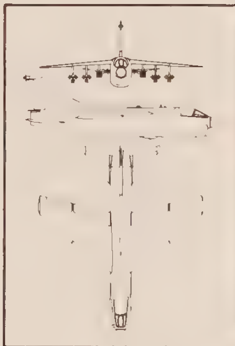
“The A-7E, as confirmed by over 160,000 flight hours and over 14,000 combat missions, is the finest light attack weapon system in the world.”

...QUOTE FROM 1971 OPERATIONAL REPORT.



The greatest weapon delivery system in the world can't do its job if you can't keep it in the air. So the A-7 was designed for quicker turnaround. With easier access to maintenance areas on the plane itself.

On today's A-7, 90% of this work can be done at ground level. This includes a single location checkout panel, avionics compartments, waist-high gun, and a built-in hand pump for the utility hydraulic system.

These features save time for the men who keep the A-7 in flight status. *The results are making the A-7 a classic aircraft in its own time.*

TUCUMCARI

Boeing is playing a significant role in the development of a faster, more mobile Navy.

Using underwater foils like airplane wings, the Boeing-designed Tucumcari can obtain speeds of over 45 knots.

Since the craft is virtually lifted out of the water, it has excellent maneuverability and outstanding platform stability in heavy seas.

This 71-foot "fly-over-the-water" hydrofoil has no propeller. It's powered by a water jet propulsion system. With no complicated gears and drive shafts, there is less to go wrong. The Tucumcari just runs and runs.

Now Boeing is at work with the U.S. Navy on a project leading to the development of a missile-carrying hydrofoil.

BOEING

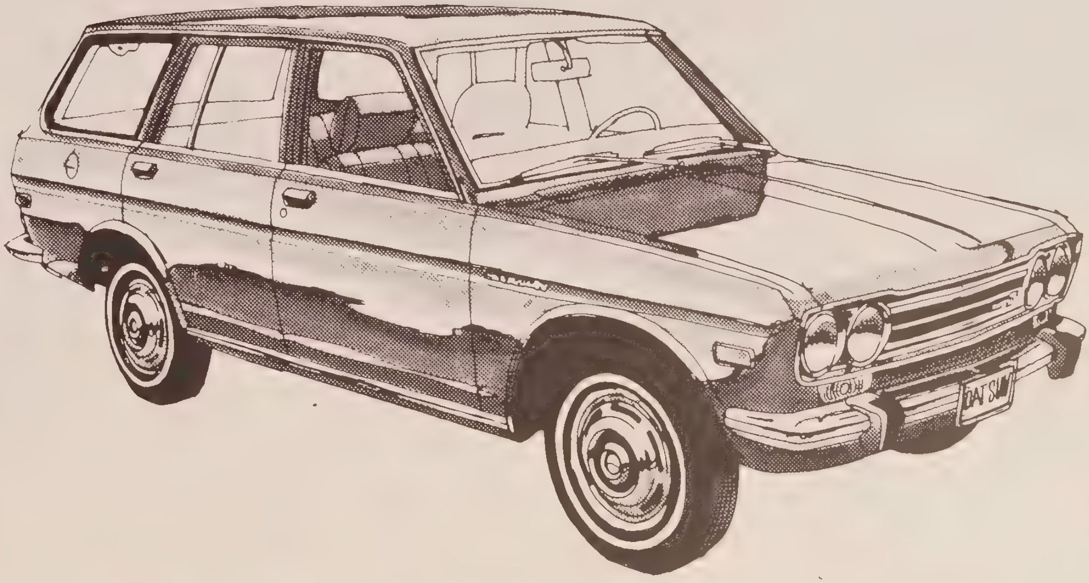
Is this the perfect Datsun?



Ask the expert.

Just for openers the Small Car Expert can show you the 5-Door Datsun Station Wagon. Big enough for you, your family and plenty of cargo.

Inside the smart 510 Wagon you'll find such features as fully reclining bucket seats, all-vinyl upholstery, nylon carpeting, tinted glass. Outside, you get whitewalls, safety front disc brakes. All as standard equipment. And more.

Plus that lively overhead cam engine that delivers around 25 miles per gallon. Select from a 4-speed all-synchromesh stick shift or a three-speed automatic.

The Datsun 510 Station Wagon. It may be the perfect Datsun for you. See the Small Car Expert. Your Datsun dealer.

A special, integral, Worldwide department — run by Military for the Military

MILITARY WORLD-WIDE BANKING DEPARTMENT
UNB

The UNB computer is utilized as an adjunct to the brain of man — and not in substitution thereof. A TRULY PERSONALIZED SERVICE.

Free checking accounts, no minimum balance required, no restriction on check usage. OVERDRAFT PROTECTION. Copy-rited "Federal Eagle" red, white and blue-bordered checks printed to your order. Plus a total banking service to include savings account, loans and all miscellany. This is THE bank that will consistently take care of your banking needs as a midshipman, as a Navy officer, as a former Navy officer and as a Retired Navy officer. NO GIMMICKS.

Member — FDIC (deposits insured up to $20,000,00)

Congratulations

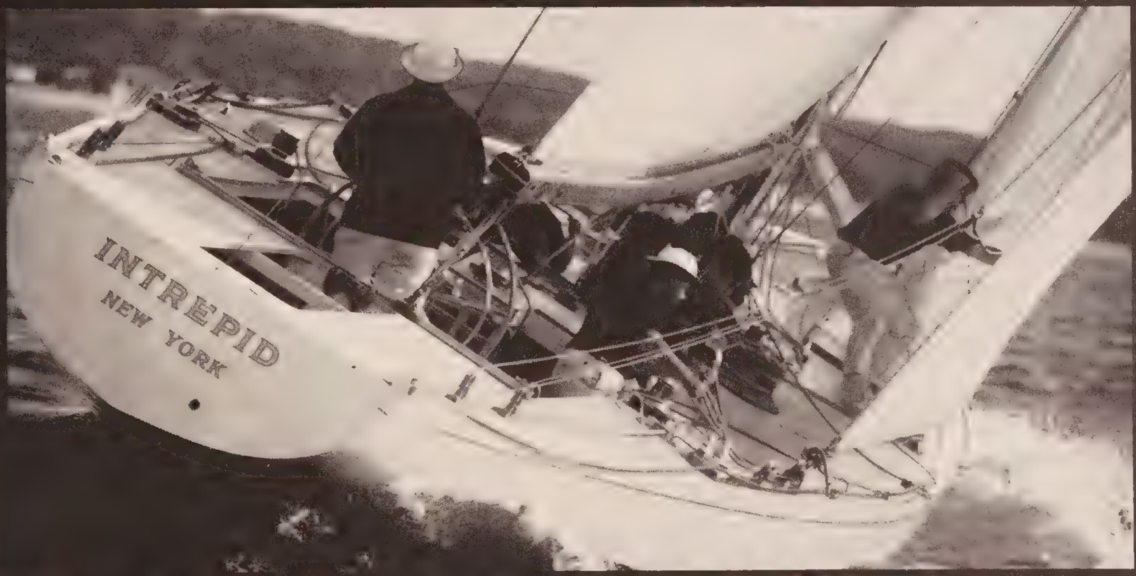
USNA CLASS OF 1972

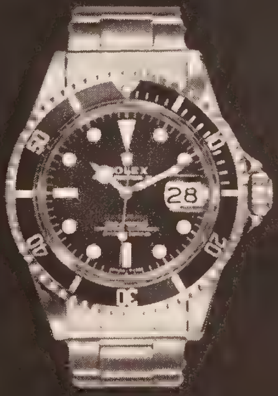
AEROQUIP CORPORATION

If you were standing guard aboard the fleet



you'd wear a Rolex

The modern Navy needs a special kind of man! Sophisticated devices, complicated machinery, and push-button weapons call for a man of the highest caliber and moral fortitude.



For you, the Navy man, Rolex has three special watches. The Rolex Submariner, individually tested to 660 feet and the Rolex Sea-Dweller, individually tested to 2,000 feet and equipped with a gas escape valve for use in saturation diving. For the Navy flyer there is the Rolex GMT-Master with black 24-hour bezel which is individually tested to 165 feet.

Carved from a single piece of surgical steel, built to withstand constant shock, to ignore dirt and grime and to withstand temperature changes ranging from Equatorial highs to Arctic lows, your Rolex will be ready to meet any challenge, any time, anywhere.

Rolex . . . recognized for excellence in craftsmanship the world over.

When you're stationed overseas and don't speak the language, what do you do for a bank?

Go to a military banking office of American Express International Banking Corporation.

We have over 170 offices, suboffices, mobile units and conversion points in Germany, Great Britain, Greece, Morocco, The Netherlands, Okinawa, the Philippines, Taiwan and Viet Nam.

Set up especially for you and your dependents.

You can open checking and savings accounts. Take out personal loans. Buy Travelers Cheques and Money Orders. Convert foreign currencies. Buy and redeem U.S. Savings Bonds. And (at most offices) take advantage of our travel and insurance services.

In other words, at American Express military banking offices overseas, you'll find most of the services you can get at any U.S. bank.

And a few you can't.

**American Express
International Banking
Corporation**

Four years.
A long time,
an important time.

Four years of work,
of sacrifice,
four years of growth,
of preparation.

For many, counting the cost of today
and the possibilities of tomorrow,
the price of this "free" education
proves too expensive.

Others weigh their values differently, and discipline themselves to work as a team.

or strive as an individual

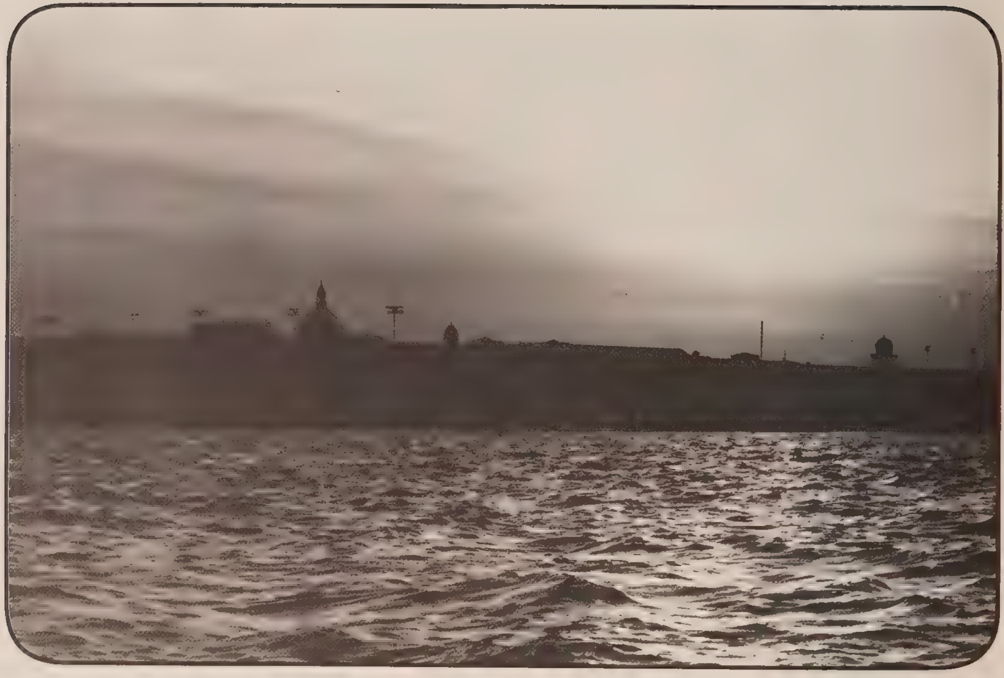
toward the goals they've set.

In some ways we're different.
But in others we're just like
the other kid-next-door who went
to the local junior college,
or the fellow across the street
that works downtown and comes
home each night.

But we didn't attend the local
junior college,
and we can't always come home
each night.

Many of the dreams are the same,
many of the goals, viewpoints;
but setting us apart are these four
 years of discipline, training,
four years that insure . . .

. . . that when the time comes,
today, tomorrow,
when the responsibility must be met
   the decision made,
                              the action taken . . .
. . . when that time comes,
   it will find us ready,
                              waiting . . .



prepared.
